Please find herewith details of our MamaTENS Maternity Referral Scheme that we operate with maternity units and clinics across the UK.

How Does it Work?

We will supply you with leaflets explaining the benefits of using our MamaTENS units and how it can reduce pain during labour and post birth. Together with the leaflet, we will provide you with a demonstration machine, to enable you to show your mums to be what the machine looks like and how it works, a DVD containing information on how MamaTENS works, how to set up and use the unit, how to arrange delivery, how to return the machine, additional usage information and posters for display.

Once you have received your information you can display it in your antenatal classes, waiting rooms, or pass it on to your community midwives and children's centres.

A Benefit to You and Your Mums-to-be

On the reverse side of the leaflet there is a unique referral code (Starting JC). If any of your mums-to-be decide they would like to use MamaTENS, all they need to do is place their order, either online or over the telephone, quote the referral code and they will automatically receive **£5.00 off of the cost of a six week rental**.

Each referral we receive from your mums-to-be equals one credit for your maternity department or hospital. Ten referrals (credits) will entitle you to receive **one** of the following:

- A free Mama TENS kit (unit, leads and pads, 4 AA batteries, removable belt clip, instruction guide, carrying pouch and neck cord)
- 10 x Pack of four replacement Electrodes
- Antenatal demonstration doll
- Chocolate Indulgence Hamper
- Birth/Exercise Ball
- Russell Hobbs Brushed Stainless Kettle

Achieve 20 credits and you can choose to receive one of the following:

- One year's subscription to MIDIRS
- 1x MamaTENS unit and 1 x MamaTENS Mytime Unit
- 20 x packs of replacement Electrodes
- Morphy Richards Accents Kettle & Toaster Set

- Panasonic Microwave with Grill
- The great news is that this is not just a “one off” offer. Once you have redeemed your credits, you can start collecting again, until you reach another ten and so on.
- **There’s More...**

If you would like to purchase some MamaTENS units for your department, we can offer you 2 fantastic deals:

- You can purchase a MamaTENS kit for the great price of £35.00 (usual price is £69.50) and, if you buy 10 machines, we will give you one FREE!

OR

- We have a surplus of Boots ex- rental units (all have been calibrated, fully refurbished, including electrodes, batteries, neck cord and manual) for the great price of £20.00 and if you buy 5, we will give you one FREE!

If you have any questions, or would like any more information, please do not hesitate to contact us:
